KARIMUNJAWA TRIP

PACKING LIST

■ LONG SLEEVE SHIRT | NORMAL SHIRT

Believe me, the sun is super strong even on cloudy days, so wearing a shirt while snorkeling isn't an unnecessary luxury. An extra plus is, that this way there will be less sunscreen in the water and the coral reef is very happy with that.

■ SUMMER WARDROBE

Karimunjawa is a tropical island with a conservative Muslim community. Wearing bikinis and other concealing clothing is no problem on the beach. In the village a tank top, crop top or shorts is no problem, but preferably no boob top, see-through shirts, and shorts in which your buttocks are visible. That way you are respectful to the residents.

■ HAT

■ FLIP FLOPS AND/OR WATER SHOES

Not all the Karimunjawa shallow waters are as safe to walk around in due to stonefish.
